## WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY (PCT Rule 43bis.1)

		Date of mailing (day/month/year) see form PCT/ISA/210 (second sheet)
Applicant's or agent's file reference see form PCT/ISA/220		<b>FOR FURTHER ACTION</b> See paragraph 2 below
International application No. PCT/GB2005/000446	International filing date (day/month/year) 10.02.2005	Priority date (day/month/year) 14.02.2004
International Patent Classification (IPC) or both national classification and IPC C09K11/06, H01L51/30		
Applicant ELAM-T LIMITED		

**1. This opinion contains indications relating to the following items:**

- Box No. I Basis of the opinion
- Box No. II Priority
- Box No. III Non-establishment of opinion with regard to novelty, inventive step and industrial applicability
- Box No. IV Lack of unity of invention
- Box No. V Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement
- Box No. VI Certain documents cited
- Box No. VII Certain defects in the international application
- Box No. VIII Certain observations on the International application

**2. FURTHER ACTION**

If a demand for international preliminary examination is made, this opinion will usually be considered to be a written opinion of the International Preliminary Examining Authority ("IPEA"). However, this does not apply where the applicant chooses an Authority other than this one to be the IPEA and the chosen IPEA has notified the International Bureau under Rule 66.1bis(b) that written opinions of this International Searching Authority will not be so considered.

If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of three months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later.

For further options, see Form PCT/ISA/220.

**3. For further details, see notes to Form PCT/ISA/220.**

**WRITTEN OPINION OF THE  
INTERNATIONAL SEARCHING AUTHORITY**

International application No.  
PCT/GB2005/000446

**Box No. I Basis of the opinion**

1. With regard to the **language**, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.  
 This opinion has been established on the basis of a translation from the original language into the following language , which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)).
2. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:
  - a. type of material:  
 a sequence listing  
 table(s) related to the sequence listing
  - b. format of material:  
 in written format  
 in computer readable form
  - c. time of filing/furnishing:  
 contained in the international application as filed.  
 filed together with the international application in computer readable form.  
 furnished subsequently to this Authority for the purposes of search.
3.  In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
4. Additional comments:

**WRITTEN OPINION OF THE  
INTERNATIONAL SEARCHING AUTHORITY**

International application No.  
PCT/GB2005/000446

**Box No. III Non-establishment of opinion with regard to novelty, inventive step and industrial applicability**

The questions whether the claimed invention appears to be novel, to involve an inventive step (to be non obvious), or to be industrially applicable have not been examined in respect of:

- the entire international application,  
 claims Nos. 1-28

because:

- the said international application, or the said claims Nos. relate to the following subject matter which does not require an international preliminary examination (*specify*):  
 the description, claims or drawings (*indicate particular elements below*) or said claims Nos. are so unclear that no meaningful opinion could be formed (*specify*):  
 the claims, or said claims Nos. are so inadequately supported by the description that no meaningful opinion could be formed.  
 no international search report has been established for the whole application or for said claims Nos. none for 9 and partially for 1-8,10-28  
 the nucleotide and/or amino acid sequence listing does not comply with the standard provided for in Annex C of the Administrative Instructions in that:

the written form                    has not been furnished

does not comply with the standard

the computer readable form      has not been furnished

does not comply with the standard

the tables related to the nucleotide and/or amino acid sequence listing, if in computer readable form only, do not comply with the technical requirements provided for in Annex C-bis of the Administrative Instructions.

See separate sheet for further details

**WRITTEN OPINION OF THE  
INTERNATIONAL SEARCHING AUTHORITY**

International application No.  
PCT/GB2005/000446

**Box No. IV Lack of unity of invention**

1.  In response to the invitation (Form PCT/ISA/206) to pay additional fees, the applicant has:
  - paid additional fees.
  - paid additional fees under protest.
  - not paid additional fees.
2.  This Authority found that the requirement of unity of invention is not complied with and chose not to invite the applicant to pay additional fees.
3. This Authority considers that the requirement of unity of invention in accordance with Rule 13.1, 13.2 and 13.3 is
  - complied with
  - not complied with for the following reasons:

see separate sheet
4. Consequently, this report has been established in respect of the following parts of the international application:
  - all parts.
  - the parts relating to claims Nos. 1-8,10-28

**Box No. V Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or  
industrial applicability; citations and explanations supporting such statement**

**1. Statement**

Novelty (N)	Yes:	Claims	
	No:	Claims	1-8,10-28
Inventive step (IS)	Yes:	Claims	
	No:	Claims	1-8,10-28
Industrial applicability (IA)	Yes:	Claims	1-8,10-28
	No:	Claims	

**2. Citations and explanations**

**see separate sheet**

**WRITTEN OPINION OF THE  
INTERNATIONAL SEARCHING  
AUTHORITY (SEPARATE SHEET)**

International application No.

PCT/GB2005/000446

Subject matter of claim 1 relates to electroluminescent compounds of formulae I, II, and III, which relate to three different groups of organometallic complexes. The common feature that links these three groups of compounds is their electroluminescent nature. These type of complexes are already known to be luminescent in the art, and this is evident by the indications in the application itself as well as by the citations given. Since the linking common feature is not novel, the subject matter lacks unity a priori, under Rule 13.1 PCT.

Two of these non-unitary subject matter have been searched; namely the ones regarding formula I and formula II (the second one without extra effort). This opinion is drafted therefore relating to the searched subject matter only.

Reference is made to the following documents:

- D1: US-A-2001/019782
- D2: WPI Derwent AN 2003-772342 -& JP-A-2003243175
- D3: WPI Derwent AN 2004-259711 -& JP-A-2003192691
- D4: US-A-2002/190250

**Invention 1** covered by claims 1-6, 10-28 (partly), claim 7 (completely)

D1-D4 disclose electroluminescent compounds falling in the scope of formula I (D1 *inter alia* Compound 1-22 on page 12; D2 *inter alia* Compound Ir-8; D3 Compound 7 on page 4; D4 Structure VI on page 4). These disclosures anticipate the subject matter of claim 1. Likewise they do that of independent claims 10,11 and their dependent claims.

The method of preparation in claim 7 is also anticipated by the following disclosures: D1 page 17, paragraph 88; D4 page 5 paragraph 64 - page 6 paragraph 65. Thus the subject matter of claims 1-7, 10-28 is not novel under Article 33(2) PCT.

**Invention 2** covered by claims 1-6, 10-28 (partly), claim 8 (completely)

D2-D4 disclose electroluminescent compounds falling in the scope of formula I (D1 Formula 11 on page 8; D2 *inter alia* Compound Ir-6; D3 Compound 9 on page 4). These disclosures anticipate the subject matter of claim 1. Likewise they do that of independent claims 10,11 and their dependent claims. Thus the subject matter of claims 1-6, 10-28 is not novel under Article

**WRITTEN OPINION OF THE  
INTERNATIONAL SEARCHING  
AUTHORITY (SEPARATE SHEET)**

International application No.

PCT/GB2005/000446

33(2) PCT.

The method of preparation in claim 8 also lacks novelty in the sense of Article 33(3) PCT. On page 17, paragraph 88, the method of synthesis of Iridium complexes such like are disclosed in a generic form.
